

## ePOS Central

Designed for multiple outlet operators, ePOS Central offers maximum control over your Uniwell EPOS terminals, providing sales, transaction and staff analysis to aid in the management of multiple outlets from a central back office.

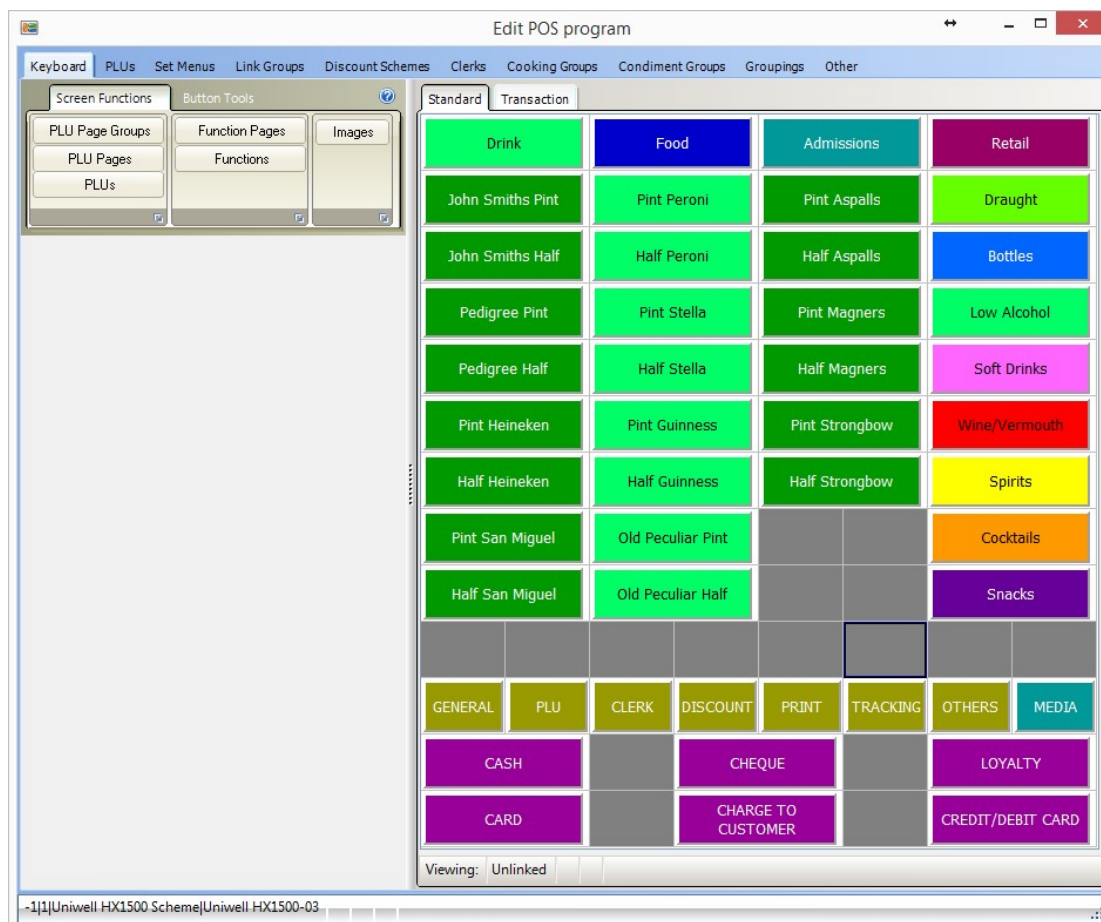

Easy to navigate screens make product and price changes quick and simple to implement, allowing businesses to react swiftly to market demands or trends, whether it's updating menus, adding new product lines or programming new prices.

Capable of handling several hundred separate outlets EPOS Central puts you firmly in control over the point of service and delivers key business information to help make quick and timely decisions.

ePOS Central is a multi-site, multi-user reporting and stock management back office software solution for use with the Uniwell EPOS Terminals. The software uses industry standard Microsoft SQL Server databases with support for 2008, 2012 or 2014 full and express versions.

### Features

**Powerful EPOS Management:** Complete control over your EPOS terminals to allow business decisions to be implemented quickly, whether it's changes to staff, menu updates, new products, price increases or systems changes.

**Remote Communications:** Software can be installed on or off-site allowing changes to be made from the comfort of your office wherever it may be.

**Automated Report Collection:** Automated report collection at the end of shift or end of day.

**Business Intelligence:** Powerful Key Performance Indicators and a selection of detailed reports to help you deliver business performance and generate greater profits.

**Multiple Price Bands:** Link outlets to price bands for easier price management, price files allow different prices for specific times throughout the day and different prices for days of the week.

**Daily and Weekly Business Sheets:** Secure control over cash and takings so shortfalls are immediately highlighted.

**Multi Outlet Stock Management:** Keep track of stock for each outlet including inter-site transfers

**Optional Cloud Interface:** Allowing remote users access to data via the MSD.Cloud hosted solution.

**Automated Emailing of Reports:** Reports delivered to the users email daily, weekly or monthly

**Electronic Journal Analysis:** Drill down to individual transactions for in depth auditing

**Automatic Ordering:** Generate suggested orders based on historical usage statistics or current stock levels.

**Model Support:** Supports all the current Uniwell AX/HX models including the new HX-2500

## **Business Intelligence Reports**

**Operator Analysis:** Highlight the most productive / unproductive staff members to award commission or identify training needs. Track sales, voids, corrections, refunds and no sales by operator.

**Electronic Journal:** Keep a record of your audit roll on your PC for future reference.
